

# MyHoody Care Instructions

Caring for Microfibre is easy when you follow the basic care instructions

Wash separately in Cold or Warm water.

Do not bleach or use Fabric Softener.

Use mild liquid detergent as soap powders can leave residue on fabrics.

Preferably line dry or, if tumble drying use a very low heat setting.

## Care Tips:

- + Where possible cold wash and line dry.
- + Be careful what you wash with your microfibre. Preferably keep cotton towels out of the wash loads with Microfibre, to avoid the lint grabbing onto the Microfibre.
- + Ideally wash microfibre separately but if you must mix loads, wash with other non-linting synthetics. Like anything you wash, be sure to separate your white or light coloured microfibre from your dark coloured microfibre.

If you have any questions regarding the care of your garment contact us.
